

**DIAMOND HF VERTICAL ANTENNAS**  
**DP-CP5SH Five-Band Trap Vertical Antenna**

Diamond's CP5SH is a five band (40M, 20M, 15M, 10M and 6M) trap vertical antenna with trap radials.

Its light weight, which makes it very manageable during the installation process and will allow for a simple mast solution.

CP5HS: 7/14/21/28/50MHz(40m/20m/15m/10m/6m) 29MHzFM

Length: 3.6m

Radial length: approx.1.8m

Weight: 3.4kg

Max.power rating: 200W SSB(7MHz), 400W SSB (14/21MHz), 500W SSB (28/29/50MHz)

Impedance: 50ohms

VSWR: Less than 1.5:1

Rated wind velocity: 45m/sec.

Mast diameter accepted: 30mm to 62mm / Connector: MJ

Type: Self support 5 band trapped vertical antenna with trapped radials.

Radial elements can be set for one direction.
